

"The Seed of Life"® an alternative natural meal replacement.

KAPAI PUKU® was developed after a worrying medical experience. In researching possible remedies, it soon became apparent just how many people take little or no care in looking after their minds and bodies – the very vehicles that transport us through our lives.

Combined with a balanced diet; particularly seasonal fresh fruits and veggies, KAPAI PUKU® will help ensure vitamins & minerals are available to revitalize our bodies.

HIGH IN FIBRE
GREAT SOURCE OF PROTEIN
RICH IN COMPLEX CARBOHYDRATES
LOW IN SUGAR AND SALT
RICH SOURCE OF OMEGA 3; AND MINERALS

The combination of seeds and grains within KAPAI PUKU® are what our ancestors lived on for generations when obesity and diabetes almost didn't exist. You will notice a significant

decrease in your appetite; but at the same time your metabolism will receive a boost from this Low GI food, which will help with any weight loss goals.

Natural food is Mother Nature's perfect medicine, who knows you may discover a catalyst for change, becoming happier and healthier not through using pills and fad diets, but by simply eating unprocessed foods.
